

Cinematic Storytelling

A Hilltree Creative Lane

Thank you for taking the time to review this overview. Hilltree Creative is a storytelling studio that partners with mission-driven organizations to translate complex work into clear, compelling narratives. We were introduced to H2O because someone on your team believed our approach could serve the stories you are working to tell. The one-pager that follows outlines what a partnership typically looks like. We welcome the conversation, and we are thankful for the opportunity!

HOW AN ENGAGEMENT TAKES SHAPE

Ways to Work With Us

Anchor Film

A single film built around one story, used across mediums, such as web, fundraising, and other key moments. Typically multi-month, with scope shaped to story and timeline.

Campaign Package

The anchor film alongside cutdowns and supporting pieces shaped for specific audiences or moments. Larger in scope and timeline, with pricing scaled to the breadth of deliverables.

Ongoing Cadence

A monthly, quarterly, or annual partnership of shorter work: mini-documentaries, event coverage, leadership pieces, and social campaigns that maintain presence between anchor releases.

Each engagement is priced according to its scope and timeline. Because we run a small, nimble team without traditional agency overhead, our pricing typically sits below industry standard for work of this caliber.
